SUMMARY

Aspiring Software Engineer| NSEC'27 |Skilled in JavaScript (React.js, Node.js), APIs, DevOps and Problem Solving | 1x Hackathon Winner |Building Scalable and High-Performance Applications

EDUCATION

Netaji Subhash Engineering Collage Oct 2024 - May 2027
Bachelor of Technology in Computer Science and Engineering 7.6 GPA
Coursework: Data structures, Algorithms, Databases, Computer Architechture, Computer Networks
Iswar Chandra Vidyasagar Polytechnic Oct 2021 - June 2024
Diploma In Engineering in Computer Science and Technology 6.8 GPA
Coursework: Data structures, Algorithms, Databases, Computer Org, Computer Networks, Micro-processors, IOT

PROJECTS

Auranest Nov 2024 

Techstack: JavaScript, React.js, PostgreSQL, Next.js, Clerk

- Developed an AI-powered web app for redesigning rooms based on user preferences.
- Neon and Drizzle ORM for database management using PostgreSQL.
- Implemented authentication via Clerk for securing user data.
- Used Hugging Face AI Model to add image generation functionality.

Animal species Recognition Using CNN June 2024 

Techstack: TensorFlow, Keras, Python, Numpy, Jupyter Notebook

- Developed a Convolutional Neural Network (CNN) model for Animal Species Recognition using a labeled image dataset.
- Applied data augmentation techniques using Augmentor & generated synthetic samples, resulting in a 2-3% improvement in accuracy.
- Utilized pre-trained models with transfer learning (ResNet152V2, Inception, Xception)leading to improved convergence rates and accuracy.

EcoScan-Ai Feb 2025 

Techstack: JavaScript, React.js, PostgreSQL, Next.js, Web3Auth, Tailwind Css

- Built EcoScan -Ai an Ai-powered smart Waste Management Application with NextJs.
- Used PostgreSQL DB for storing Image Inputs & integrated Web3auth for user authentication & Ai Api for verifying Waste Images.
- Implemented Tokenized Reward System with user groups for tracking waste in local areas.

TECHNICAL SKILLS

Frameworks and Libraries: Reactjs, NextJs, NodeJs, Pandas, TensorFlow, Keras, Numpy

Programming: Python, Java, C++, JavaScript, Tailwind Css, BashScript, PL-SQL/NoSQL

Development Tools: Git/Github, Docker, AWS , GCP, Appwrite, Clerk, Postman, Hugging Face

CERTIFICATIONS

Databricks Accredited Generative AI Fundamentals, : Sep 2024

- Gained Knowledge about Generative Ai

JP-Morgan Software Engineering Job Simulation, : Oct 2023

- Credential ID : drM5eYB3Z73GWrknd

EXTRACURRICULAR ACTIVITIES & ACHIEVEMENTS

- Actively Participated more than 5 offline/online Coding Hackathons .
- Won Avalanche Track Prize In a 36 hour long hackathon StatusCode1.0 held at IIIT Kalyani
- Tutored 10+ Undergraduate Engineering Students on a project of a Saas FrontEnd Application(ReactJs)
